Projects

Table Booking | *React, Laravel, PHP, MySQL, Tailwind CSS*

2026

- Built a full stack restaurant table reservation platform featuring real-time availability, booking management, and comprehensive admin panel.
- Implemented authentication, reservation logic, and database optimization for high-concurrency scenarios.

Hotelia | *Laravel, PHP, Tailwind CSS, MySQL*

2026

- Developed a SaaS hotel management application with multi-tenant architecture supporting hotels, rooms, users, and responsive analytics dashboard.
- Built role-based access control and automated reporting features for hotel administrators.

Personal Portfolio | *HTML, CSS, Bootstrap, JavaScript*

2025

- Created a multilingual portfolio website with dark/light mode toggle, smooth animations, and responsive design.
- Showcased technical skills, project case studies, and professional experience with optimized performance.
